EDUCATION

Greater Noida Institute Of Technology, Greater Noida, India
Bachelor of Technology in Computer Science and Engineering

2022 – 2026

TECHNICAL SKILLS

- **Programming Languages:** JavaScript, TypeScript, c++
- **Frontend:** React.js, Next.js 14, HTML5, CSS3, Redux Toolkit, Shadcn ui
- **Backend:** Node.js, Express, WebSocket, Microservices
- **Databases:** PostgreSQL, MongoDB, MySQL
- **DevOps & Tools:** AWS, Linux, Docker, Git, CI/CD, Jenkins
- **Problem Solving:** 300+ problems solved on LeetCode (Data Structures & Algorithms)

PROFESSIONAL EXPERIENCE

Freelance Web Developer

Remote | Present

- **Designed and developed** custom web applications using **React.js, Next.js, Express.js**, and **SQL**-based databases.
- Collaborated with clients to gather requirements, propose solutions, and ensure on-time delivery of fully functional applications.
- Built responsive, user-friendly UIs and integrated secure backend APIs for seamless end-to-end functionality.

Frontend Web Developer Intern

Nirmaan.studio | Remote | Dec 2023 – Mar 2024

- **Developed** responsive and high-performance web interfaces using **React.js, Redux Toolkit, and Tailwind CSS**, leading to a **20% improvement** in page load speed.
- **Transformed wireframes** into fully functional web applications, ensuring **100% alignment** with project milestones and client requirements.
- **Conducted code reviews** and implemented optimizations that boosted application efficiency, reducing API response time by **30%** and improving Lighthouse performance scores.

PROJECTS

BYTE – E-commerce Platform

[github](#)

[live](#)

React, Express.js, MongoDB, Redux Toolkit, Tailwind CSS

- Built a full-stack e-commerce platform with secure user authentication, product catalog, and dynamic filtering.
- Developed an intuitive admin dashboard for managing inventory, orders, and users.
- Implemented interactive product reviews and followed responsive design best practices for seamless buyer and seller experiences.

HARMONIC – Music Streaming and Social Listening Platform

[github](#)

[live](#)

Next.js 14, Prisma, PostgreSQL, Zustand, React Hook Form, Tailwind CSS, Shadcn UI, Node.js, Express, WebSocket, Socket.io

- Created a real-time music streaming app with **Music Rooms** for synchronized group listening.
- Integrated secure authentication, personalized playlists, and advanced search for music discovery
- Built synchronized playback controls using WebSocket and Socket.io for seamless social listening experiences.

PING – Secure Communication Platform

[github](#)

[live](#)

Next.js, Express.js, Node.js, TypeScript, Tailwind CSS, Shadcn UI, WebRTC

- Developed an end-to-end encrypted chat app supporting **personal and group chats** with customizable themes and robust privacy settings.
- Implemented **real-time messaging with infinite scroll** for a smooth user experience.
- Integrated video and audio calling using a WebRTC signaling server built with Express and Node.js.
